Re: Qualified Applicator of Pecora Products

Mr. Zoladz,

Because of legal and liability insurance constraints in the industry, Pecora Corporation does not offer an "Approved" or "Certified" or "Licensed" applicator program.

The company, however, does recognize and recommend contractors/applicators that over a three (3) year period of time demonstrated ability and workmanship in applying comparable waterproofing products and/or has participated in a project specific installation review with a Pecora Representative.

In this context, Karras Painting, LLC is considered by Pecora to be a qualified applicator of our sealants and waterproofing products.

Sincerely Yours,

Michael Ellis
Technical Service Representative
